

Who we are?

Global is a leading gas spring & end fitting manufacturing & exporting company.

Company name	:	Global Amortisör San. Ve Dış Tic. Ltd. Şti.
Established	:	2003 (Member of a multinational group of companies)
Staff	:	70 people (15 Office (5 Engineers))+55 Production)
Turnover	:	4 mil. Euro (2015)
Production plant	:	Istanbul - TURKEY
Quality certificates	:	ISO 9001 - 2008
Sales	:	15% Internal sales , 85% Export
Export markets	:	Germany, France, U.K., Portugal, Holland, Belgium, Spain, Italy, Poland, Greece, Denmark, Sweden, Finland, U.S.A., Austria, Czech Republic, Australia, Brazil, Colombia, Egypt, Iran, Lebanon, Gana, . . .
Machine park	:	CNC turning lathes, double spindle sliding CNC lathes, NC welding, Saw cutting, oil filling, chamfering, gas charging, 13 station assembly Automation line, robotic epoxy wet painting and oven conveyor line, Degreasing, centerless grinding and polishing machines . . .
Testing equipment	:	Zwick Roel push & pull force testing machine, Mutitoyo surface Roughness tester, extension speed tester, life cycle testing, Mutitoyo Calipers , micrometers . . .
CAD software	:	Solid Works
Communication languages	:	Turkish, English, French, Portugeus, Spanish.
Registered brands	:	Global Gazlı Amortisör, Global Gas Springs, Mobilift

What we do?

Global Co. manufactures wide range of high quality gas springs, end fittings and control units for wide range of applications.

Product range : Hydropneumatic (push) lift gas springs, elastic, rigid in Extension, Rigin in compression, rigin in both directions, self release locking ga springs, stainless steel gas springs, dampers, plastic, metal, safety locking tubes, plastic, zamac, steel and stainless steel end fittings and bracket. . .

Main application areas :

Automotive, furniture, medical, construction, ship & yacht Building, Agricultural machinery, industrial machinery, Defence industry and many other application areas . . .

Automotive

Furniture

Construction Machinery

Medical Equipment

Agricultural Machinery

Defence Industry

Why GLOBAL?

Our Company's policy is based on the concept of the client being the most important element and reason of our activities. As a result of this policy we guarantee our clients ;

Continuous high quality

Our whole team including our suppliers work very hard in order to improve the product and service quality and reach %100 customer satisfaction.

Our suppliers' latest production technology are under strictly monitored system by our CQI (Continuous Quality Improvement) Programme which evaluates the supplied products' quality performance.

You can obtain the best results by assembling a Global Gas Springs to your application.

Prompt service

By advantage of our young, energetic and experienced sales and engineering team, we provide our customers with prompt service.

In addition to this, by working with professional experienced transporters, we offer the shortest transit time for the shipments.

As we work globally, we are working on a new project 6/24 in order to offer 24 hours service for our clients all over the world.

Location

Our plant is located in a geostrategical city ; İstanbul Turkey.

Turkey is a bridge between east and west. This gives a great advantage in transportation to any point in the world within a very short transit time.

Istanbul is the capital of economy in Turkey. As a result of this we have

Technical Support

Our technical and sales team work together with the customer from the first design of the product to the final assembly stage in order to get the best result on the application area.

Research & Development

Our engineers and marketing staff collect and analyze all kind of information all over the world to understand the demand of the market and make their researches and development according to the results of these analyzes.

Competitive Price

We always work together with our suppliers to improve our product quality without losing our price competitiveness.

We guarantee that our prices are very competitive in view to our products and service quality.
